

Weekly Development Report 12 (11/27 - 12/03)

This is the 12th Weekly Development Report. This report summarizes the work completed from **Sunday, 27 November, to Saturday, 3 December**.

1. Group

Created notifications DynamoDB table to load NFT information detected by the image tracker algorithm

2. Individual

2.1. Carlo Diaz

Implemented notifications page to pull data from notifications DynamoDB table; notifications load all the NFT information, but no connection to art confirmation or DMCA pages yet

2.2. Spencer Hite

2.3. Paolo Ihde

Finished implementing pop up box for art confirmation on the notifications page and merged into main.

2.4. Brandon Kidd

No major updates.

2.5. Autumn Roberts

Implemented changes to have a user based path system in art guardian art gallery function. Also added final values to the art form in the form of a whitelist boolean dropdown menu.

2.6. Michael Thompson

No Major Updates

2.7. Tobin Zheng

Created a lambda function for writing notifications to the notifications table. Began troubleshooting issues with front-end to back-end integration with front-end group members.
